## SUMMARY

Versatile Front-End Developer with 4 years of experience in crafting responsive web applications. Proficient in CSS and JavaScript frameworks, with a strong foundation in UX design and user psychology. Adapt at building and enhancing web pages, contributing to notable achievements in UI/UX improvements. Seeking a challenging role as a React Developer to leverage technical expertise and drive innovation in web development.

## TECHNICAL SKILLS

- **React.js:** Proficient in building dynamic and responsive user interfaces using the React.js library.
- **JavaScript:** Strong understanding of JavaScript, including ES6 features, for efficient and modern web development.
- **TypeScript:** Strong understanding of TypeScript for static type-checking along with the latest ECMAScript features.
- **React Native:** Proficient in building cross platform mobile applications for different IOS & Android devices using the React-native & Expo libraries.
- **HTML/CSS:** Solid foundation in HTML5 and CSS3 for structuring and styling web applications.
- **JS Frameworks/Libraries:** Experience with other JavaScript frameworks and libraries to complement React.js, such as Redux for state management.
- **Responsive Design:** Skillful in implementing responsive design principles to ensure a seamless user experience across various devices.
- **Front End Build Tools:** Familiarity with build tools like Webpack and Babel for optimizing and bundling code.
- **Git and Version Control:** Proficient in using Git for version control, allowing collaboration and tracking changes efficiently.
- **RESTful APIs:** Experience working with RESTful APIs to integrate data and functionalities into React.js applications.
- **Web Performance Optimization:** Understanding of techniques and tools for optimizing web performance, ensuring fast and efficient user experiences.

## SKILLS

- Adaptability
- Collaboration
- Communication
- Problem-solving
- Time Management
- Creativity
- Critical Thinking
- Attention to Detail
- Leadership
- Resilience

## EXPERIENCE

**React Js Developer** / Wakeb                                    *12/2023 - 08/2024*

- Developed the frontend of Saudi Arabia Digital Government website using HTML, CSS and React Js.
- Using Tailwind framework for styling.
- Conducted meticulous maintenance on predeveloped components to ensure ongoing optimal functionality.
- Collaborated effectively within a remote setting, showcasing adaptability and strong communication skills.

**Frontend Developer (per Hour)** / Abseleration                          *01/2021 - 04/2023*

- Spearheaded the development of UI/UX pages for a freelancing project focused on electrical and mechanical designs, utilizing HTML, CSS, and JavaScript.
- Following the MVC pattern.
- Conducted meticulous maintenance on predeveloped components to ensure ongoing optimal functionality.
- Collaborated effectively within a remote setting, showcasing adaptability and strong communication skills.
- Applied problem-solving skills to address challenges in the development process, ensuring seamless project execution.

**Software Technical Support Engineer** / Trufla Technology              *04/2022 - 09/2022*

- Provided on-call pager rotation support, ensuring 24/7 assistance during crucial customer go-lives and maintenance phases.
- Communicated effectively with customers via email, demonstrating strong interpersonal and customer service skills.
- Collaborated with the technical team to analyze and resolve issues promptly, contributing to customer satisfaction.
- Exhibited a proactive approach in identifying potential problems and implementing preventive measures.
- Maintained a high level of technical knowledge and adapted swiftly to new technologies and software.

**Front End Developer Intern** / Trufla Technology                        *12/2021 - 03/2022*

- Gained valuable hands-on experience in building front-end solutions, contributing to the overall team's project success.
- Received comprehensive training on new platforms and libraries, including React.js, to enhance technical capabilities.
- Participated in a multinational environment, adopting Agile and Scrum methodologies for effective teamwork.
- Demonstrated a strong commitment to learning and professional development.

**Front End Developer** / VHM                                             *01/2021 - 10/2021*

- Developed the front end of websites using a combination of JavaScript, CSS, HTML, and Bootstrap.
- Contributed to Veeva and MI projects for medical companies, implementing animations in mailers to enhance user engagement.
- Collaborated closely with cross-functional teams, including designers and backend developers, to achieve project objectives.

---

## EDUCATION AND TRAINING

**Bachelor of Engineering**: Mechatronics                                 *09/2011 - 06/2016*

German University in Cairo

---

## PROJECTS

- Restao https://bishoyboules.github.io/justCoffee/# Developing an e-commerce responsive web app for selling coffee & desserts using HTML, CSS and JavaScript.
- TapCash https://tapcash-ten.vercel.app/ Developing a fintech web app using React.js, Next.js and sass.
- Racrops http://racrops.com/ Developing an E-commerce website using React.js, Next.js and Tailwind.
